During the Crimean War in 1854, the defenders of Petropavlovsk successfully pushed back the superior forces of the Anglo-French squadron. You will learn this and much more during a city tour with an experienced guide. You will also have an excursion at the "Vulcanarium" museum, the only volcano history museum in Russia, and a delicious lunch with local Kamchatka products. **Day 3. Monday – Breakfast. Trip to the Avachinsky Volcano foothill (vehicle + snowcat/snowmobile with attached sledges).**

**The Avachinskiy volcano** (2751 m) is one of the most active Kamchatka volcanoes and it is often called “domestic volcano” by local residents as it is located in relative proximity to the city. Its crater is filled with hardened lava above which you can see rising fumarole clouds.

**The Camel mountain** is a volcanic extrusion, situated between the two volcanoes, Koryakskiy and Avachinskiy, and has the height of about 1200 meters. From the top of the mountain you can see beautiful views of the Avachinskaya bay and the surroundings of Petropavlovsk and Elizovo and the Avacha river valley.

Transfer to the starting point. Loading into the snowcat/snowmobile attached sledges. Arrival at the "Kamchatintour" camp base (in 1 hour), tea time. Excursion to the Avachinsky Volcano foothill on snowcat/snowmobile with attached sledges. Promenade. Tea and snacks at the "Kamchatintour" camp base. Transfer to the hotel, rest.

**Day 4 – Breakfast. Snowmobile trip to Three Brothers Rocks (in attached sledges).** From the Cape Mayachniy you will enjoy a picturesque view of the Avachinskaya Bay, volcanoes surrounding it, and the Pacific Ocean as well as the Three Brothers Rocks. Picnic en route (quick snacks and tea). Return to the hotel. Free time, rest.

**The Cape Mayachny** is the ending point of the mountain range at the exit of the Avachinskaya Bay. From the cliffs of the cape you can see the waters of the Pacific Ocean, the Avachinskaya Bay, as well as Vilyuchinsky and Mutnovsky volcanoes. Winter trip to the Cape Mayachny is an opportunity to see the dawn over the Pacific Ocean, to have a ride in a snowmobile sled over the frozen lake Tidal, along the surrounding hills. During this tour you will see the legendary **Petropavlovsk Lighthouse**: The most interesting object of the south-eastern coast of Kamchatka - the 1st class Petropavlovsk Lighthouse, which has experienced a lot in its history and continues to help sailors. And although it is often called the patriarch among his Far Eastern brethren, the Hydrographic Department had not counted it as its object for a long time. Only on July 13, in 1833, a notice to the navigators appeared, which informed about the location of the Kamchatka lighthouses and the nature of their operation. After that, the lighthouse at the Cape Dalny began to be marked on maps.
